the Resolves, to ascertain the value of Town ship No 3, Range 13th, and for the appointment of Commiss oners to make investigation into the doings in the land office, have passed to be en-grossed, in the Honse. The previous question, which cuts off all amendments, was moved and sustained, and they passed, Yeas 115, Nays ou Presuming that they will pass the Senate and be entered upon our Statute Books, it may not be improper to advert to the action of the House in their passage and the inducements which might Cony of Augusta, and are artfully framed to subserve political purposes, they assume that the late Land Agent improperly gave up or exchanged good securities and received in their room worthless ones, and they provide for an investigation, the result of which is not to be made public unt I the meeting of the next Leg-The Gloucester Telegraph says the gale was inslature. The resolves have passed as first of very severe at that place', there were no vessels fered without amendment. There is no limitapurposes of the resolves, but it is left to the discretion of this board of Commissioners or to the Governor and Council to expend as much or as little, as they please. It is the more so, because one has signified his desire to have this charge made a subject of enquity immediately. His friends

An extra from the Bath Telegraph office have repeatedly informed the House, that he was ling his official conduct should be subjected to the "severest scratiny," that "he would shrink from no investigation." One of his friends, Mr from no investigation Morse of Bath, informed the House to-day, that he had prepared in order for this investigation, and it the resolves could be so amended as to strike out those which gave the Governor and Council power to appoint Commissioners, he would offer it The order which he read to the

House, is as follows

Ordered, "That a Joint Select Committee, be raised with power to send for persons and papers and went into the stream, but threw anchor and to report to this House, all the doings of the Land Agent, under decree of the Commission. ers, by which he was ordered to release 26-40 of the sum due from William Emerson, to the State. There is another reason why this business should be done by this Legislature, it will save expense to the State, and it is their duty them had nothing to do, and they might as well the Capitol all summer, at the public expense

The motives of those who have advocated the passage of these resolves, in their present shape. and refused to concur in any amendments, may be honese, but there appears to be a design in to own, a device to add to the political stock for the next campaign. This commission is to be remaining in the Library in session next summer, the result is not to be known until winter, in the meantime, rumors of tion, brought forward his series of resolutions, the late Land Agent, conniving at dishonesty shall publish the resolves in a future number by Gov Kent, and his Council, will fall " thick as autumnal leaves around us lt looks as political result. BY ANDREW URE, M. D., F. R. S., &c. Illustrated with 1,241 Engravings ! HIS is, unquestionably, the most popular work

of the kind, ever published, and a book most admirably adapted to the wants of all classes of the community. The following are the important objects which the learned author endeavors to accompjich.

1st. To instruct the Manufacturer, Metallurgist, and Tradesman, in the principles of their respective processes, so as to render them, in reality, the masters of their business; and, to emancipate them from a state of bondage to such as are too commonly governed by blind prejudice and a vicious

2dly. To afford Merchants, Brokers, Drysalters, Druggists, and Officers of the Revenue, characteristle descriptions of the commodities which pass through their hands.

3dly. By exhibiting some of the finest develop-ments of Chemistry and Physics, to lay open an excellent practical school to students of these kindred

4thly. To teach Capitalists, who may be desirous of placing their funds in some puductive branch of industry, to select judiciously, among plausible rindustry, t Sthly. To enable gentlemen of the Law to be-

come well acquainted with the nature of those patent schemes which it is unit to give rise to lingaduskeag Bridge, where he is prepared to execute all necessary repairs upon Watches, Clocks, and other fine articles such as Jewelry, &c.

many others. By a rote of the Danger reasunation Temper-And, lastly, to give the general reader, intent, chiefly, on Intellectual Cultivation, views of many of the noblest achievements of Science, in effecting and day of February, 1842, at 10 o'clock, A. M. those grand transformations of matter.
